

THE PROJECT

Our project addresses the personal development of NEET, focusing especially on building their motivation for participating in society and contributing to the labour market, increase their confidence as citizens, while enhancing their employability skills using entrepreneurship as an activator for interest and using new ICT based strategies to get in touch with educators and society.

The project's scope is two folded:

- offer a new **OUTREACH** strategy that make use of ICT and new media to increase NGOs and youth associations' ability to reach, engage and motivate NEETs
- Prepare a **COLLABORATIVE LEARNING** space where NEETs can create new opportunities for themselves and connect with peers, while enhancing their employability and entrepreneurial skills.
