

TRAINING IN COPENHAGEN

Our partnership travelled in Copenhagen to share food and experiences!

Partners participated in the Food for Change Training, hosted on June 2023 by the project coordinator Crossing Borders, in the vibrant city of Copenhagen!

During this engaging staff training program, our partnership had the opportunity to test the methodology on how to implement Dialogue Dinners as well as to share their inputs and experience for the development of the Dialogue Dinners Trainer's Guide. As part of the training, we rolled up our sleeves, cooked together, and enjoyed the homemade food while discussing interesting topics that concern young generation!

DIALOGUE DINNERS

The Food for Change partnership is thrilled to share the amazing experience of the Dialogue Dinners!

Currently, each partner is successfully organising and hosting six Dialogue Dinners, calling for young people to come together, cook and share their thoughts and ideas while having dinner. The response from our younger audience has been remarkable, with a diverse array of enthusiastic participants fully embracing this enriching experience. These events have facilitated a shared culinary journey, accompanied by the sharing of personal narratives. Beyond the culinary aspect, they have paved the way for profound discussions on topics spanning from the participants' aspirations, future plans, emotions, and concerns, to their insights on the current societal landscape.

The experience was truly enriching, fostering connections and mutual understanding among participants. We are deeply grateful for this opportunity and eagerly anticipate the chance to implement this activity in the future.

HIGHLIGHTS OF THE DINNERS

- 6 Dialogue Dinners implemented by each partner
- 48 participants in every country
- A lot of deep and meaningful conversations and moments!

WHAT'S COOKING NEXT?

As we move forward, we have exciting plans to share! Now, the partnership is finalising the Recipes for Conversation e-book while focusing on developing the **Trainer's Guide** with tips and methods of implementing your own Dialogue Dinners!

This Guide will serve as a valuable resource for every youth worker, young individual and stakeholder who is interested in implementing dialogue dinners and promoting impactful conversations. Food recipes, guidelines and valuable tips will be included! Stay tuned and follow us in the Project's Platform!
