RECOVER

THE GUIDE

Newsletter 2

THE RECOVER: EUROPEAN YOUTH FOR A GREEN RECOVER IS DESIGNED TO ADDRESS YOUTH UNEMPLOYMENT BY PROMOTING GREEN ENTREPRENEURSHIP IN LINE WITH THE EU ECONOMY'S GREEN TRANSITION EFFORTS. THE PROJECT IS CO-FUNDED BY THE EUROPEAN UNION.

The guide explores the policy and regulatory frameworks that have been developed to support the growth of the green economy and entrepreneurship. It also highlights the role of innovation in the green economy and entrepreneurship, emphasizing the importance of developing new and sustainable solutions that meet the needs of consumers and the planet.

Importantly, this guide presents a series of practical steps for creating a green business.

These steps include identifying a business idea, conducting a feasibility study, developing a business plan, and raising capital.

By following these steps, entrepreneurs can maximize their chances of success and ensure the sustainability of their business over the long term.

Sources of finance for starting a green business are also covered in this guide, including various financing options such as grants, loans and venture capital.

This guide also looks at green business models and presents success stories from each partner country, highlighting key success factors that contribute to the growth of green businesses in different countries.

Furthermore, the guide provides a Green Entrepreneurship Ecosystem map, which identifies the key stakeholders involved in the green economy and entrepreneurship, as well as the support services and infrastructure required to support the growth of green enterprises. This information is crucial for entrepreneurs seeking to establish a green enterprise, as it enables them to identify the key players and resources required to make their business a success.

Overall, the actual implementation documentation of RECOVER:

This introductory guide to the green economy and green entrepreneurship is an essential resource for anyone interested in starting a green business in the EU.

This guide provides practical advice, financing options and case studies to inspire and guide entrepreneurs towards a sustainable future.

This is an important contribution to the European Green Deal as it promotes sustainable economic growth and helps achieve the Green Deal goals.
