

GENERATION SDG

DECIPHERING THE SDGS FOR THE EVERYDAY LIVES OF YOUTH >>> THE PROJECT

Generation SDG is an Erasmus+ Cooperation Partnership project in the field of Youth, focusing on increasing SDG Awareness and Understanding among young people. Young people are the future stewards of our planet. **Generation SDG** partners believe that they need to be supported to play an active role in achieving the SDGs because they stand to lose the most if these Goals are never achieved.

>>> Engaging young people in local action for the SDGs empowers them to become active agents of change and contribute to sustainable development within their communities. By involving youth in meaningful projects and initiatives, they develop a sense of ownership, responsibility, and civic engagement, fostering a lifelong commitment to sustainable development. In addition, local action is key to achieving the global targets of the SDGs.

As the SDGs are interconnected and address various social, economic, and environmental dimensions, addressing them locally creates a ripple effect that collectively contributes to global progress. Young people taking action in their local communities can have a tangible impact on poverty, education, climate change, gender equality, and more. Promoting local action for the SDGs fosters a sense of community, collaboration, and social cohesion. Young people build networks, establish partnerships, and enhance social connections when they work towards common goals.

Deciphering the SDGs for the everyday lives of Youth

»»» TARGET GROUPS

Young people aged 15 to 24: individuals from various cultural backgrounds, urban and rural settings, and socio-economic contexts within these European countries. Generation SDG aims to engage young people who are interested in youth advocacy, sustainable development, and Sustainable Development Goals (SDGs) and seeks to empower them with the knowledge, skills, and resources needed to become effective advocates for positive change in their communities and beyond.

Youth workers, youth work educators, youth work networks, youth forums and youth policymakers.
